Stock on hand and on shipboard..... 244 9,297 2 RICE.—The receipts are about 10,000 bushels Carolin lough and 175 tierces of Clean Rice from Georgetown, C. The article still continues depressed and prices have fallen off. We learn of sales of some 300 tierces Carolin Clean at 900%c. 7 ib. for fair to prime. We quote Inferior 8%68%c.; fair to prime 909%c.; choice—the

some 200 bales of North River. A part of the Eastern was sold from the wharf at \$1 55 \$ hundred, and the North River at \$1 45 % hundred. CORN-The arrivals have been entirely from Baltimore,

and amount to some 12,000 bushels, part of it to dealers. There is but a limited demand, purchasers buying only as their necessities require, expecting lower rates. Sales of White Maryland has taken place at \$1 35@I 40 \$ bushel weight, sacks included. The former price was for new and the latter for old Corn.

OATS .- The arrivals of this grain have been largersay some 7000 bushels—all from Baltimore. Transac tions have taken place at 77c. \$\Bar{\pi}\$ bushel weight, without

FLOUR .- There is a considerable stock of most qualities, and for which there is only limited sale. BACON.—Under a heavy stock and but little demand, the market is still tending downward. Prices are quite unsettled and irregular, and it is rather difficult to quote the market, parties sometimes closing out under positive orders to take the best rate they can get. We quote prime Shoulders at 15c.; prime Ribbed Sides 16c.; Clear Ribbed and Clear Sides at 16%@17%c. 78 16. SALT .- There continues to be a limited jobbing de

A cargo from Liverpool is be ing disposed of in lots from the wharf at \$2.38 % sack. BAGGING AND ROPE.—The demand for Gunny Cloth is very light. Holders have accepted lower rates, and the

New York Market. MONEY MARKET.

The New York Evening Post, of Tuesday, December 4th.

The statement of the revenue, the public debt and the currency, which is contained in the report of the Secretary of the Treasury and the accompanying documents, is, on the whole, regarded with much satisfaction, as is egident from the active demand for Government securi

erident from the active demand for Government securities, both on domestic and foreign account.

Mr. McCulloch's project of a foreign loan, the principal and interest to be payable abroad, finds little fayor, and there is no probability that a plan so unmecessary and so contrary to established the policy of this country will be acceptable to the public or adopted by Congress. The remarks of the Secretary relative to the necessity of contracting the currency, and those on almost all other practical questions he touches upon, are generally received with approval.

The loan market is rather more active at 6 per cent, for call loans. Choice bills pass at 7, and there is still but little disposition on the part of banks and capitalists to touch the inferior grades, which are nominally quoted at 9a10.

Boston Boot and Shoe Market.

Boston Boot and Shoe Market.

BOSTON, November 29.—The present demand is moderate and for small lots of Winter goods. Stocks on hand are light, and are not being accumulated rapidly. The trade are moving cautiously, and prices are comparatively steady for staple goods. The wild runners in some quarters respecting the soundness of the boot and shoe firms of this city are without foundation, and are purely the invention of those who are unacquainted with the leading houses in the trade, and reminds us of the adage "that misery likes companions." In this instance the selection will prove of but little comfort, as the trade of this city is in as healthy and sound condition as it ever way. The quiet time now being experienced has been fully expected; in fact trade has held on well this Fall, and the weekly shipments are in advance of the year 1859, at the same time, and compare favorably with those of last year, which were larger than usual for November. The total number of cases shipped this month has been 65,465; in November last year it was 83,121 cases. The shipments for the week have been 10,576 cases, among which we notice 1208 cases for San Francisco, and there is an increase of the number of cases to several of the fouthern cities over what has been in the past few months. Total shipments by rail, 7787. Total shipments of boots and shoes by rail and sea for the week, 10,676.
